

# The CBC Onshore News

November 2009

Dear CBC Members,

It feels like winter is already here in Wyoming. With all of this snow, I am looking forward to a great skiing season.

Thank you to all of the board members that helped with winterizing the club this year. It took a couple of tries because of the freezing weather so early in October, but the club is winterized for the season and the gate to the grounds is closed. I hope that everyone enjoyed his or her boating season at the club.

Many projects continue to be underway, such as work on the beach house, more bumper material on the new gas dock and other improvements around the grounds. Thank you to your board of directors who work all year round on club projects.

Just a reminder that we will be sending our billing for the 2010 season in December, if you have any corrections or changes to your account please contact Karen Ewart at 237-9823. Your 2010 dues must be paid by March 1<sup>st</sup>.

Your new board of directors will start their terms on January 1<sup>st</sup> of the New Year. To keep up to date on boat club information, email your board, request a dock, and more please check our website at [www.casperboatclub.com](http://www.casperboatclub.com).

Sonya Gruner, Commodore
