

The Casper Boat Club

We Are Excited!

On behalf of the board, I am happy to express how excited and energized we are, as a Board, for this upcoming summer at the Boat Club. We have plans to continue to repair and update many areas of our club. After much discussion, we believe it is time for a change. With that, we would like to thank Sheryll for her years of work in the kitchen at the club. These changes will bring a new kitchen manager as well as a bar manager. Our new managers will offer changes in the menu as well as regular specials in both the bar and kitchen. As we move forward I ask that you remember this is Our Club and together we will have a wonderful summer as a The Boat Club Community, taking care of the club for our future.

By Guess and By God,

Chris Trujillo

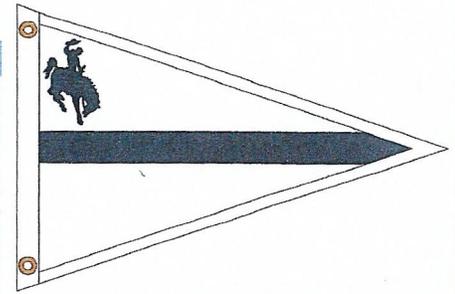

Commodore

Please Welcome

We are pleased to welcome John Crockett and Courtney Gonzales to the Boat Club to operate the restaurant and bar for the season. John and Cortney are coming to us from sunny San Diego CA. John has worked at resorts and restaurants in Alaska, Maui, Las Vegas and San Diego. Johns menu suggestions look absolutely delicious with new menu items as well as old favorites. Casper native, Chef Goose Sorenson, Head chef of Solera in Denver CO, will be assisting in setting up the menu and specials. Courtney is bringing her talents from Ballast Point Tasting Room and Kitchen as an Events Coordinator and Bartender. She is already lining up local beers as well as a larger selection of wines. John and Courtney are excited to be in Wyoming. We are thrilled to share our boat club community with them.

Now Hiring

We have positions open in the bar and kitchen for the season. Bartenders and wait staff both full time and part time are available. If you know someone who might be interested please have them send a letter of interest to — casperboatclub@gmail.com

Reminders

Please pay your yearly dues and dock fees by March 1st.

If you are planning to install or move a boat lift you need approval from the Dock Assignment Committee. Lifts must be cantilever lifts
