

Casper Boat Club

Newsletter

Oct 2019

Hello Members,

Well, it's sad to say but the season has come to an end. Most of the boats have been pulled from the lake and the club has been shut down and will be winterized in a couple of weeks. We'll be starting some of the projects the Bureau has finally given us permission to do; the back bay washout and the block wall from the jungle towards the gas dock.

We've had a couple of incidents down by the swim beach. We'll try to be nice and say watch your kids. Please put the equipment back the way you found it so it takes less time for our ground crews to straighten up. We had an incident where someone turned the water hydrant on down there, letting it run for hours before anyone caught it, and it literally washed a huge amount of the beach sand into the lake. They left chairs in the water and the beach was in total disarray. This kind of action is certainly not going to be accepted, so if we can find out who it was, the Board will be dealing with it.

I think the dog droppings around the Club has improved. Owners are picking up and that's very much appreciated by your fellow boaters.

We also had an incident where we had a damaged boat lift due to high winds. The phone numbers for that member were not up to date. We've had incidents in the afternoons or on a Sunday and the phone numbers on file were disconnected. As we have been changing from land lines to cell phones, please make a note to let Karen know to update your contact information.

Personally, I want to say a big Thank You to all the staff; Tim, Mike, Z, Ian, and all the fabulous servers we had, as it was a fabulous year! There were very few issues and we are going to try to resolve those issues next year. I personally want to thank everybody, and members, for making my Commodore-ship this year a very, very, enjoyable one. We had so many successful events; Shawna Trujillo and her pasta night, the Board members for the Poker Run that netted around \$37,000 for Meals on Wheels. It makes me smile when I see how much everyone has contributed to help this club become so successful.

As everything is winding down, I want to wish everyone a fantastic winter, and a great Holiday. We will be staying in contact throughout the snow blowing season but looking forward to Spring. Hopefully, Spring will come earlier next year. And a final note; if your boat is stored at the boat club for the winter months, please let Karen know so she can do the proper billing for winter storage.

And again, thank you all ever so much Casper Boat Club members, for making my Commodore year so pleasant!

Lynn Burgess
Commodore
